

Our vision

Safe dams for NSW

Our mission

To empower, support and regulate dam owners in managing dam safety risks for the NSW Community

Our values

Trust, Service, Integrity,
Accountability

Strategic goals

Ensure dams safety risks are acceptable to the community

We will develop a comprehensive profile of declared dams in NSW.

We will consult the community on dam safety risks.

We will ensure dam owners are managing their dams' safety risks.

Dam owners are capable, accountable, and transparent in managing dam safety

We will make it easy for dam owners to comply with NSW dams' safety laws,

We will reinforce dam owner accountability.

We will support dam owners to be transparent about their dams' safety risks.

Dam Safety is recognised as being a fair, transparent, and effective regulator

We will maintain robust governance frameworks and continually improve our regulatory approach.

We will engage effectively with stakeholders.

We will invest in our people and foster an enviable organisational culture.

Key targets

100%

dams above safety threshold demonstrate acceptable progress against agreed actions

100%

known risk ratings of declared dams

no. of dam owners demonstrating So Far As Is Reasonably Practicable (SFAIRP) analysis

100% sampled

dam owners compliance with publishing annual safety standards report

90%

planned education, engagement and communication activities delivered per year

Modern Regulatory Improvement Tool (MRIT) scores

90%

staff feel they have received training and development to do their job well

Stakeholder engagement satisfaction
